

RELAX.

YOU'VE EARNED IT!

A leading American manufacturer of hot tubs, hydrotherapeutic spas and swim spas for more than two decades

The logo for Mira Hot Tubs is located in the bottom right corner. It features the word "Mira" in a large, bold, black serif font. Above the letter "i" in "Mira" are three blue stars of varying sizes, with a blue swoosh arching over them. Below "Mira" are the words "HOT TUBS" in a smaller, black, sans-serif font. The entire logo is set within a white oval background.

MANUFACTURING QUALITY IS OUR JOB.

Our state-of-the-art manufacturing and distribution facility located just outside Nashville, Tennessee is equipped with the latest and greatest technology in the spa manufacturing industry. Our expert engineers, craftsmen, customer service personnel and experienced staff make use of that technology to establish Mira Hot Tubs as one of the leading spa manufacturers in the world. Mira Hot Tubs prides itself on being an American manufacturer, using only the highest quality American made parts. We partner with some of the industry's finest names, such as Balboa®, Lucite®, Waterway and Aristec® to provide high-quality, energy-efficient spas at an affordable price. Our spas are built to last.

Whether you want hydrotherapy treatment, a place to relax, or a family fun center, Mira has the perfect spa for you. Call us today and you will see why we say at Mira Hot Tubs we don't just manufacture spas, we manufacture quality.

MIRA HOT TUBS FEATURES

The New 360 Degree Filtration System by Mira Hot Tubs is made of an anti-bacterial media that helps prevent bacteria growth. It filters out 99.9% of the pathogens and particulates that can grow in a warm water environment like a hot tub. Why 360 degree? Our unique filter tubes use centrifugal flow to maximize the entire filter. This gives our spas 360 degrees of filtration for a cleaner and more enjoyable spa - resulting in a healthier and happier spa experience for you and your family.

Mira Hot Tubs features the Green Energy Retention System. We bring you one of the most efficient Energy Retention Spas in the Industry. Our shell uses ABS Backed Acrylic and a factory applied two-part Poly-Urethane System. This maximizes the heat retention to save you more on your monthly power bill. Along with our 5-3" foam-filled cover, the Balboa state-of-the-art control allows you to put your spa into "sleep mode", providing even more savings. These are some of the ways we help you save money - the Mira Hot Tub way!

Mira has engineered Ergonomically Designed seating to enhance your comfort. By strategically positioning jets to focus power on trigger points, our spas offer comfort, style and optimized hydrotherapeutic health benefits.

CONTROL FOR YOUR SPA RIGHT AT YOUR FINGERTIPS

Control your spa from anywhere in the world with the Balboa Worldwide App (bwa™). Access the full interface controls for your hot tub on your Android™ or iPhone® device and ensure that your hot tub will be ready whenever you want to take a dip. Set the temperature, turn pumps on and off, and even set filtration cycles. All from the comfort of your smart device anywhere you have internet access.
