JACUZZI® BRAND IS AN ICON

We set the standard by which all hot tubs are measured. While imitation may be the sincerest form of flattery, only 60 years of innovation can produce hot tub designs made to the demanding standards of the Jacuzzi® Brand.

The Jacuzzi Family immigrated to the U.S. and revolutionized hydrotherapy in the home. A critical need to change the life of a child triggered this therapeutic invention, but a desire for wellness founded an industry.

Jacuzzi® Brand products are manufactured in 5 countries, enjoyed in more than 100 countries worldwide, employ thousands of people around the world, and is trusted by millions of customers globally.
